EXPERIENCE

Discernica Systems Corp. | Web Designer

MAY 2018 - PRESENT

- Responsible for design, development and maintenance of websites
- Re-designed the user interfaces for websites such as restaurants and structural companies using UI/UX principles
- For each of these projects I applied the following UI/UX concepts:
 - Creating personas, low-fidelity and high-fidelity wireframes, mockups and prototypes.
 - Went through the iterative process of designing, prototyping, and testing until the desired prototype was created
- After design process was complete, I began developing the websites using HTML5, CSS3, Bootstrap4, JavaScript, Git, and Slack.
