EXPERIENCE

Discernica Systems Corp. | Web Designer
MAY 2018 - PRESENT

- Responsible for design, development and maintenance of websites
- Re-designed the user interfaces for various wesbites using UX/UI principles to improve the user experience and solve pain points
- For each website I applied the following UX/UI concepts:
    - Conducted and analyzed user research to develop personas, low-fidelity and high-fidelity wireframes, mockups and prototypes
    - Went through the iterative process of designing, prototyping, and testing until the desired prototype was created
- After design process was complete, I developed websites using HTML5, CSS3, Bootstrap4, JavaScript, and Git

Larlyn Property Management LTD. | Receptionist
JULY 2017

- Booked reservations, organized invoices and payments, data entry, filing, and organizing courier services

PROJECTS

Ensemble | Passion Project
APRIL 2020

- Created a solution for musicians who have difficulty meeting others to collaborate with by designing a concept mobile app that connects local musicians through matching users based on various criteria
- Determined user pain points and needs through interviewing students around my university
- Using the research data, I created personas and iterated designs from low fidelity wireframes to high fidelity prototypes and made changes based on user feedback

EDUCATION

George Brown College
